

The Optimist

Newsletter of Indian American Cancer Network (IACAN)

Volume 13, January 2012

We wish each and every one of you a healthy and happy New Year.

IACAN is proud to announce it's first fund raising gala on March 23, 2012 at the Sweetwater Country Club in Sugarland, Texas.

The Indian American community represents the second largest Asian group in Houston and continues to grow. Cancer is a major health concern among Indian Americans. When diagnosed with cancer, they face unique cultural and social challenges; from linguistic barriers to diversity in diet and often feel alone in their journey. The Indian American Cancer Network (IACAN) was established in August 2009 as a cancer resource network that educates and supports the Indian American community.

We solicit your generous financial support to fund the various initiatives and programs of the organization. We look forward to your generosity, support, and partnership in making the first fundraising gala a great success! For more information, please visit www.iacannetwork.org
